We Are Committed

UR Medicine Finger Lakes Health is committed to providing compassionate care to every member of our community, regardless of their ability to pay. It is this philosophy that guides us as a not-for-profit healthcare system. If you do not have health insurance, or think you may not be able to pay in full for your care provided by Geneva General Hospital, Soldiers and Sailors Memorial Hospital, or our affiliated practices, we can help. Our Financial Aid Program, also known as “charity care,” is available to assist uninsured or underinsured members of our community who are willing, but unable to pay in part or full for their care. Financial Aid is based on your income, assets, and needs. In addition, we may be able to help you obtain free or low-cost health insurance, or work with you to establish a manageable payment plan.

To speak to a representative about our financial aid program please call our Financial Assistance Office at (315) 787-4150.

As a not-for-profit health system, we return any operating surplus to the people in our community in several ways:

- We provide care for those who cannot afford to pay. Many of the costs to deliver the vital services we offer are not fully covered by government programs like Medicare, Medicaid, or private insurance plans.
- We subsidize the difference between the cost to deliver services and the payments from public and private insurance programs.
- We reinvest in new services and programs, as well as maintenance and enhancements to facilities, property, and equipment to serve our communities.
- We develop programs and community wellness initiatives to meet community health needs and promote health equity.

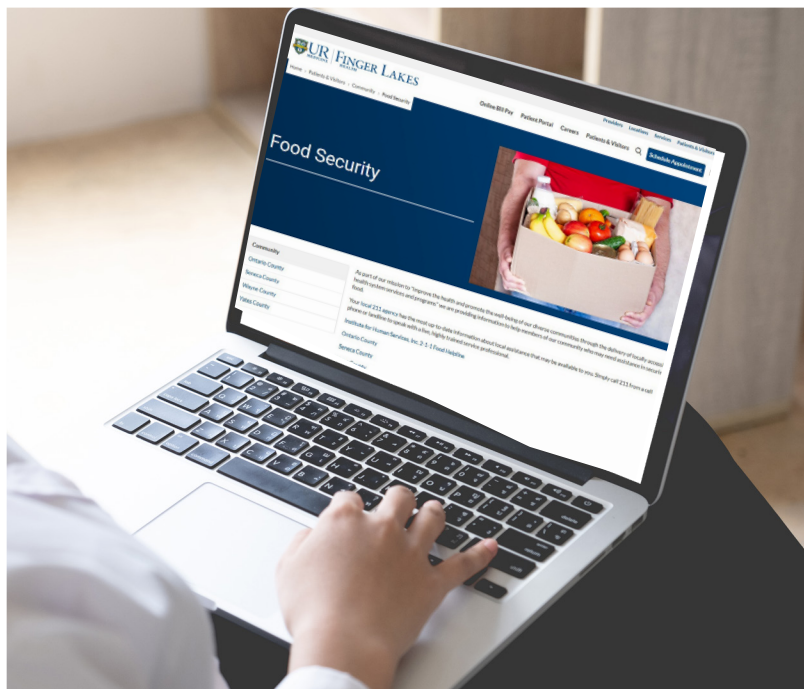

In partnership with Ontario County Public Health, Seneca County Public Health, Yates County Public Health, SAY2 Rural Health Network/Pivotal Health and Common Ground Health, UR Medicine Finger Lakes Health conducted a Community Health Needs Assessment and developed a Community Services plan to guide our community health efforts for 2022-2024. The Community Health Needs Assessment process involved surveys, focus groups, analyses of disease prevalence data and priority setting dialogue and meetings with a broad range of community partners and stakeholders. Using the framework of the New York State Prevention Agenda, we identified two key priority areas for 2022-2024 and worked to identify evidence-based interventions to address these priorities:

- 1) Food Security**
- 2) Promote Well-Being and Prevent Mental and Substance Use Disorders**

UR Medicine Finger Lakes Health and each of our three counties developed multi-year action plans targeting these priorities. To view the full community health needs assessments, these plans, and the updates, visit our website at: <https://www.flhealth.org/patients-visitors/community/community-health-needs-assessment-chna-community-service-plan-csp-and-community-health-improvement-plan-chip>. If you would like to request a free hard copy of the needs assessment or community services plan, please call our Community Services Department at (315) 787-4053.

Food Security

As part of our mission to "improve the health and promote the well-being of our diverse communities through the delivery of locally accessible health system services and programs," we are providing information

We Are Advocates

to help members of our community who may need assistance in securing food.

We have incorporated questions of food security into our conversations with patients at annual visits and with new patients in our primary care practices.

On our website, we provide links to area food programs and connect you with area services and organizations that specialize in food distribution, healthy food preparation, food budgets, and more. We also encourage you to use 2-1-1 in your area for the most up-to-date resources.

Promote Well-Being and Prevent Mental and Substance Use Disorders

UR Medicine Finger Lakes Health representatives participated in the Yates County with Systems of Care Planning meetings to address mental health needs. In addition, UR Medicine Finger Lakes Health offers individual and group therapy through the John D. Kelly Clinic. We have also enhanced our capabilities for and delivery of telemedicine services to expand access.

Geneva General Hospital

Economic and Community Benefits

Economic activity

\$270,000,000

The economic activity generated by hospitals through jobs and the purchase of goods and services makes up 10.3% of the state's entire gross domestic product.^[1]

Jobs generated

1,500

Hospitals and health systems are often the largest employers in communities, generate many more jobs and are top 10 private sector employers in every region of New York.^[2]

Tax dollars generated

\$35,000,000

New York hospitals generate significant tax dollars and stimulate the economies of local communities and the whole state.^[3]

Payroll expenditures

\$79,000,000

New York hospitals' #1 investment is in their people, including direct salary and benefits to their employees.^[4]

Community benefits and investments

\$17,000,000

Adhering to their charitable mission, hospitals cover the cost of care provided to people in need; subsidize care and services to low-income, elderly and under-served communities; and continuously invest in many community health initiatives.^[5]

Patients Served

Outpatients provided care

181,000

People treated in the emergency room

22,000

People admitted to hospitals

2,400

Hospitals serve patients in their communities 24/7, 365 days a year.^[4]

Patients covered by Medicare and Medicaid

At this hospital, Medicare and Medicaid patients make up:

- **83%** of all people admitted
- **64%** of all outpatients provided care

65% of this hospital's patient service revenue comes from Medicare and Medicaid. This is a result of the large volume of services being reimbursed by Medicare and Medicaid, which do not cover the cost of care, driving significant underpayment from these public insurance programs.^[4]

DATA SOURCES

[1] Data are mainly from 2023 New York state hospital cost reports and the 2022 RIMS II multipliers. The New York State GDP is from the Bureau of Economic Analysis.

[2] Data are mainly from 2023 New York state hospital cost reports and the 2022 RIMS II multipliers. Private sector employment information is from the NYS DOL

[3] Data are mainly from 2023 New York state hospital cost reports and state/federal tax tables.

[4] Data are mainly from 2023 New York state hospital cost reports.

[5] Data are from 2022 IRS form 990 Schedule H, reported by hospitals.

Soldiers and Sailors Memorial Hospital

Economic and Community Benefits

Economic activity

\$86,000,000

The economic activity generated by hospitals through jobs and the purchase of goods and services makes up 10.3% of the state's entire gross domestic product.^[1]

Jobs generated

500

Hospitals and health systems are often the largest employers in communities, generate many more jobs and are top 10 private sector employers in every region of New York.^[2]

Tax dollars generated

\$11,000,000

New York hospitals generate significant tax dollars and stimulate the economies of local communities and the whole state.^[3]

Payroll expenditures

\$25,000,000

New York hospitals' #1 investment is in their people, including direct salary and benefits to their employees.^[4]

Community benefits and investments

\$2,500,000

Adhering to their charitable mission, hospitals cover the cost of care provided to people in need; subsidize care and services to low-income, elderly and under-served communities; and continuously invest in many community health initiatives.^[5]

Patients Served

Outpatients provided care

101,000

People treated in the emergency room

7,900

People admitted to hospitals

300

Hospitals serve patients in their communities 24/7, 365 days a year.^[4]

Patients covered by Medicare and Medicaid

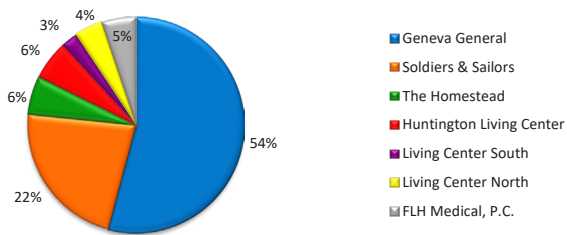

At this hospital, Medicare and Medicaid patients make up:

- **89%** of all people admitted
- **61%** of all outpatients provided care

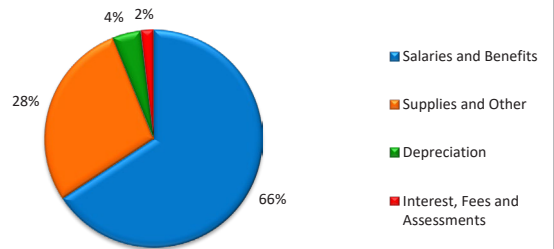

74% of this hospital's patient service revenue comes from Medicare and Medicaid. This is a result of the large volume of services being reimbursed by Medicare and Medicaid, which do not cover the cost of care, driving significant underpayment from these public insurance programs.^[4]
